

C+E Max

Natural cosmetic products made with high-quality ingredients, proven effectiveness, and formulations that respect both your skin and the environment.

C+E Max Drinkable Collagen

Stimulates collagen formation, promotes skin hydration, and cell regeneration from within.

C+E Max Drinkable Collagen is a drinkable dietary supplement formulated with Peptan® marine collagen, Prolastin® elastin, hyaluronic acid, and a combination of vitamins and antioxidants.

Each component plays a specific role that, in combination, can promote natural collagen creation, improve skin elasticity and flexibility, reduce signs of aging, strengthen hair and nails, and protect the skin against stress and oxidative damage.

KEY BENEFITS

- ✓ Promotes natural collagen creation
- ✓ Helps improve skin elasticity and flexibility
- ✓ Reduces signs of aging
- ✓ Strengthens hair and nail health
- ✓ Protects against stress and oxidative damage

ACTIVE INGREDIENTS

Peptan® Collagen Peptides® 1,2: Bioactive marine collagen peptides. Clinical studies show wrinkle reduction, hair strengthening, less collagen fragmentation, and improved skin hydration.

Prolastin® Elastin® 3,4: Elastin peptides that enhance skin elasticity, contributing to better elastin and collagen synthesis.

Hyaluronic Acid® 5,6: An endogenous substance that keeps the skin hydrated and visibly smoother, promoting a filling effect

Resveratrol® 7,8: A powerful natural antioxidant (found in grape skin and seeds) that enhances skin defenses by neutralizing free radicals from UV radiation and environmental pollution, and repairing the damage they cause.

Vitamins B1, B5, B6® 9,10: Vitamins that help delay skin aging.

Vitamin C® 11,12: Essential for the normal formation of endogenous collagen.

Vitamin D® 13,14: Helps produce healthy cells throughout the body and is one of the key vitamins for skin maintenance.

Vitamin E® 15,16: Delays skin aging. It is the main antioxidant vitamin, destroying cellular free radicals formed by UV radiation.

C+E Max Drinkable Collagen

Presentation: 10 vials of 30ml.

Usage: Initial dose: Take 1 vial/ day for 20 consecutive days and rest for 10 days before starting the maintenance treatment.

Maintenance dose: Take 1 vial/ day for 10 consecutive days and rest for 20 days, each month.

Safety and Tolerability: Formulated with natural ingredients. No adverse effects reported.

Highlight: Combines Peptan® marine collagen, Prolastin® marine elastin, hyaluronic acid, resveratrol, and essential vitamins for skin, hair, and nail health, and protection against oxidative stress. C+E Max Drinkable Collagen Promotes skin hydration and cell regeneration from within, improves elasticity and firmness, and ensures nourished and healthy skin.
